

For Board Review and Edit:

Principles Guiding Facilities Consideration

*As the Board of Trustees considers the future
of San Juan Island Library facilities,
we will...*

1

Keep all stakeholders apprised of the schedule, process, and outcomes of the facilities consideration project;

2

Listen actively without preconceptions;

3

Receive all input from all sources as worthy of thoughtful attention and consideration;

4

Withhold from decision-making until all input has been evaluated with stakeholder participation throughout.
